

Professional Summary

Aspiring full-stack web developer with a strong passion for creating websites and web applications that are user-friendly and engaging. I have experience as a front-end developer at ByteWorld IT Services company, where I created a CRM for an IPD (India Property Dekho) website. I'm always eager to learn new things and stay updated with the latest trends. Currently, I am searching for a new opportunity as a front-end developer, back-end developer, or MERN stack developer, and looking for opportunities to collaborate on interesting web development projects where I can make a meaningful contribution.
